UNITED STATES GOVERNMENT

# Memorandum

SED-M75-062

DATE: 21 May 1975

TO : OC ADP Systems Administrator

FROM : Chief, Staff Engineering Division, OC-E

SUBJECT: Computer Output Microfilm (COM) Requirements

REF : OC M-75-272

1. In response to the request contained in the reference, a survey of OC-E has been conducted to determine present and planned requirements for COM. The survey has determined that OC-E does not and will not have any COM requirements to directly levy upon OL/P&PD.

2. It should be noted that OC-E/ESD/MSB is a recipient of both Agency and non-Agency COM which is provided by the Catalog Section of OC/SD. In addition, the Cable Dissemination System (which is being developed within OC-E/SED) will generate a COM requirement, however, this requirement is being levied on OL/P&PD by the Cable Secretariat Branch of OC/DO.

3. As a result of the survey, [redacted] (Chief of the [redacted] of OC-E/SED/SYB) has expressed an interest in determining the feasibility of COM for MAX program listings. This possible requirement for COM is experimental in nature and is not time-critical.

4. If any additional information is required concerning OC-E COM requirements, please have members of your staff contact [redacted].
